REMARKS

In the notice of allowance, the Examiner noted the following informalities to the drawings. First, the Examiner noted that reference number 16 does not exist; this reference number has been added to the drawings. Second, the Examiner noted that reference number 20 is not connected to any element; this reference number has been removed from the drawings – it is noted that the specification does not refer to reference number 20. Third, the Examiner noted that reference number 8 is not connected to a substrate; Applicant has revised FIG. 1 so that it is clear that reference number 8 is connected to a substrate.
